Re-Heating Advice

We will endeavour to cook and package your meal at the very last moment
This to ensure to doesn't over cook.

All hot dishes will be ready to eat, but may require re-heating!

We will send all vegetables pre-blanching & chilled (to microwave Or Blanch in boiling water)
This will ensure they do not over cook!

We will send meals in microwave friendly packaging, but some items will be
better reheated in the oven, so they crisp back up!

All Puree will be in polystyrene pots to microwave for 20-30 seconds
(and get creative on the plate!!)

Best Re-Heated In Oven...

Chunky Chips

Roast Potatoes

Arancini

Fish Cakes

Hot desserts will be packaged cold to Microwave at your convenience
